THE MIDNIGHT SILENCE

The real scope of the book “The Midnight Silence” flows down in its every line. In a very standard language, it speaks of Faheem’s time, the caged voices of his suppressed era and at the same time fills the reader with a rainbow of hope. Every poem feels like a new beat, a new melody and a new scream. This book is a voice against oppression wherever it can, laying bare all the harsh realities and removing curtains from the lives of oppressed and excruciated.

CONCEALED CHINARS

Concealed Chinars is an anthology compiled by me which has been written by various writers in a beautiful way. Their words are sourced from the depth of their hearts which inherit the scent of love, loneliness, truth, trust and much more in it. Every writer's writeup is their own which bears no copy content from any other source. The odes in this anthology are melodiously written which every writer has sung in own heart."
